- competition policy
- innovation economics
- foundational economy
- local development
- health inequalities and unmet care
- behavioral economics
- HTA

## Education

MA in Economics and law, U. of Bologna

Mark: w. Honors

09/2021 - 07/2023

Thesis in **Competition Economics**: "*Innovations and Consumers' Behavioural Biases in Healthcare Markets*". The aim of the research, considering the theoretical framework of foundational economics, is to evaluate, both theoretically and through surveys, the behavioural biases that arise with the introduction of technological innovations in the healthcare sector, outlining development profiles to facilitate their adoption and evaluating effects within competition among providers.

Bachelor in Law Sciences, U. of Modena and  
Reggio Emilia

Mark: 106/110

09/2018 - 07/2021

## Volunteer experiences and memberships
